Name of Test	Actions	Expected Outcome

Sign in with Google	On the login page, click "*Sign in with Google*".	1. Browser redirects to Google's account-selection page.
		2. After choosing an account and clicking Continue, user is redirected back into "My Task Manager."
		3. Since it's the first login and no boards exist, only the left sidebar is shown, containing:
		  - Back to Login button
		  - Boards and Archived Boards sections
		  - "*+ New Board*" button
		  - "*Back to Login*" and "*+ New Board*" are clickable.

Create New Board	1. Click "*+ New Board*" button on the sidebar.
	2. In the modal, enter a board name, select visibility, add member emails.
	3. Click on "Create" button.
		1. Modal opens.
		2. After the details insertion, modal closes.
		3. New board appears in the sidebar and in the main board view.
		4. On the board screen, the following sections are visible:
		  - Created by: (owner's name)
		  - Visibility setting

- Members list
- User icon (with photo if available in Google account).
5. Visibility and Members fields are editable at any time.
6. Board name can be edited via the "pen" icon beside it.

Access Management	1. Create the board with *Private* and *Internal* visibilities (per test 2). 2. Click user icon → "*Log out*". 3. Log in with a different Google account.	1. The private board created by the first user is *not* visible to the second user. 2. If, instead, the board's visibility was set to *Internal*, then the second user will see that board upon logging in.
Add New List	1. In the board view, type a list name into "*Add new list*" field. 2. Click the adjacent "*+*" button (or press *Enter*).	1. A new list is created with the entered name. 2. A fresh "*Add new list*" field appears immediately after it. 3. Clicking the list's "*...*" menu shows *Rename, Copy, and Delete* options; clicking elsewhere closes the menu. 4. Under the list title, an "*Add new card*" field is displayed.

Add New Card

1. Under a list, type a card name into "*Add new card"* field and press Enter.
2. Click the new card's title to open its modal.
3. In the modal:
   - Add a description
   - Set a due date in the future
   - Attach a file
   - Add a comment.
5. Click *Save*.

1. The modal closes.
2. Re-opening the card (by title or pen icon) shows:
   - Description text
   - Due date
   - Downloadable attachment
   - Comment(s), each with creator name and creation date
3. All changes persist after page reload or logging out and back in.
